

I strongly support the "Do not call" list. I am on that list and now I'm finally able to sleep thru the mornings on the weekend. Also, I am grateful that I don't have to return home from a hard days work to 20 or so voice mails from telemarketers. Please don't try to fix what is not broken! Infact, I challenge you to turn down the request from telemarketers to weaken the system !!! We, the public, are very happy that New Jersey officials are leading the country by example.

Sincerely,
Eddie Gonzalez
